

Extensions for WebSite X5 - complete History

Release 3.1 (02/04/2018)

Improvement:

- Improved font formatting in TabsRD-function

Release 3.0 (01/06/2018)

New:

- Support of the „WebSite X5“-Release 14
- Check before starting the postprocessing of a project if it was already processed
- Support for two visitor counters (FlagCounter, SuperCounters) by direct editing the Incomedia project file
- Batch processing: Postprocess more than one project automatically
- Display the content of some pages in tabs, now usable for pages in Responsive Design
- Some small improvements

Release 2.0 (12/08/2016)

New:

- Supports the Website X5-Releases 9 - 13 (beginning with Release 13 Incomedia has changed the created HTML-code partial very strongly - so using Version 1.04 only some functions are available for projects created by Release 13).
- New application icon and new, modern function icons
- "Scroll to top"-button
- Display page content in tabs (only text-, image- and table-objects were tested; it will lose some formatting settings).
- Don't scroll the header - it display the horizontal menu always.

Improvements:

- On hiding menu items now the link in the menu on the bottom margin (Incomedia: "Foopad") will be hidden.
- A settings file will be append to the "Last Used"-menu not only on saving: now also on open it.
- Some small improvements

Bugfixes:

- Selection of an item in Footerlinks.
- Selection of an item in Projekt-Links.
- It was not possible to create multilingual keywords without a page description.
- In some special cases it was not possible to create the robots.txt.

Release 1.4 (06/01/2016)

New:

- Supports the Website X5-Releases 9 - 12.
- Menu item for the last opened setting files (max. 10 items).
- New Menu icon.

Bugfixes:

- Display tip-text in German language completely.
- If you added a program to "Manage your programs" you were not able to start it by

clicking on "Open" immediately. You had to restart ExWSX5.

Release 1.3 (06/28/2015)

New:

- Firstly published
- Hide Menu items
- Tables

Release 1.2 (06/08/2014)
